Product-Change-Notification (PCN)

Dear Ladies and Gentlemen,

With this document we inform you about changes in the following products:

Product

Type / Name:	INTRA (7ME5840-...) / PRIMA (7ME5841-...)
---------------------	---

Changes

Description:	The body of the a.m. flap-type flowmeter will be modified.
---------------------	--

Implications

The product / order code will change – please check the operating manual at www.mecon.de.

The max. operating temperature is limited up to +100 °C.

The max. operating pressure is limited up to 10 bar.

New inclusion of the following types:

Connection flanges acc. to EN 1092-1:	DN 15, DN 20, DN 32
--	---------------------

Compatibility

Retention of the built-in length of the following type:

Connection flange acc. to EN 1092-1:	DN 100 (4")
---	-------------

SAFETY CONTROL

Modification of the built-in length of the following types:

A) Reduction

Connection flanges acc. to EN 1092-1:	
DN 65 (2½“)	from 290 mm to 280 mm
DN 125 (5“)	from 400 mm to 380 mm
DN 150 (6“)	from 400 mm to 380 mm

B) Extension

Connection flanges acc. to EN 1092-1:	
DN 25 (1“)	from 160 mm to 170 mm
DN 40 (1½“)	from 200 mm to 240 mm
DN 50 (2“)	from 230 mm to 240 mm
DN 80 (3“)	from 310 mm to 320 mm

Problems

In case of an exchange of existing devices adaptations might be necessary due to the different built-in length.

In addition, the max. working temperature and pressure need to be checked before the exchange. Please do not hesitate to contact us for any questions or concerns.

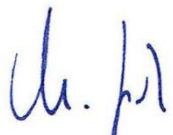

Time schedule

This notification is valid with immediate effect.

We apologize for any inconvenience this change might cause and will be glad to work with you to find a solution.

Yours sincerely,

MECON GmbH
